

## About USIS

USIS, an Altegrity company, is headquartered in Falls Church, Va. USIS has more than 6,600 employees worldwide and is the largest commercial provider of background investigations to the U.S. government. USIS also helps government clients with litigation support as well as innovative solutions that help manage records, information and documents. In addition, USIS specializes in construction surveillance services, physical/personnel/facility security and investigative analytics.

## Electronic Fingerprint Collection and FBI Channeling

USIS Healthcare Solutions offers an unmatched suite of services customized to protect your health care program's integrity and detect and deter fraud. These include our ability to provide Electronic Fingerprint Collection and FBI Channeling.

Many Healthcare Solutions clients must ensure compliance with Final Rule 6028-FC issued by the Centers for Medicare & Medicaid Services. The Final Rule requires certain medical providers/suppliers to provide fingerprints as part of the site visit process.

As one of only 12 active FBI fingerprint channelers, USIS can obtain fingerprints, channel the prints to the FBI, obtain the Criminal History Report Information (CHRI) results, and follow up on any incomplete or discrepant arrest or charge disposition information.

| Fingerprint Program Component                                 | In-House Cost                          |
|---|--|
| Per unit cost   | Average \$15,000                       |
| Maintenance and warranty                                      | Average \$1,500 per year per unit      |
| Set-up and implementation                                     | Varies by vendor based on requirements |
| Facility space (120 sq. ft. estimate)                         | \$3,000 per year                       |
| Labor costs for 1.5 employees (assumes \$50,000 per employee) | \$75,000 annually                      |

USIS has annually processed more than 500,000 fingerprint cards and 200,000 CHRI results for the Office of Personnel Management. Since 2006, USIS has performed fingerprint capture and/or channeling services for the Public Housing Authority, U.S. Forest Service and the Department of Defense. Each month, we channel 10,000 fingerprint submissions to the FBI for the U.S. Army Recruiting Command alone.

### Choose USIS Healthcare Solutions for our extensive resources and expertise in fingerprint collection and FBI channeling

Per unit costs to acquire, operate and maintain live scan machines equate to approximately \$100,000 per year, or the equivalent of about 5,000 collections during the first year. Other issues—such as management overview, errors and rework, protecting personally identifying information (PII), changing technology and facility space—all add up to substantial in-house costs and headaches. USIS Healthcare Solutions, however, makes fingerprint collection and channeling easy for clients:

- » FBI-certified civil ten-print live scan enrollment
- » More than 2,600 credentialed investigators to perform fingerprint collections in all U.S. states and territories
- » Access to mobile biometric enrollment workstations
- » Ability to leverage batch processing on "biometric days" in metro areas to increase efficiency
- » Results available within 24 hours
- » Investigators travel directly to individuals in remote areas
- » Tools include government ID, document scanner, digital color camera and digital signature capture stylus
- » Ability to accept ink and roll prints, or flat prints that are mailed to us, which we electronically scan and send to the FBI

#### USIS Healthcare Solutions: Superior resources for successful results

- » 2,600 credentialed field investigators with unparalleled experience and training
- » Nationwide footprint covering every U.S. state and territory
- » Proprietary request management system for efficient field assignments
- » Innovative and secure mobile capabilities for quick communication
- » Quality-driven case management for results clients trust
